

Nimesh Subedi

Full Stack Developer | BsSE | MsIST

✉ nimesh.subedi1@gmail.com ☎ (801) 503-2096 🐙 GitHub: Subedi-Nimesh 🌐 LinkedIn: nimesh-subedi

Result-driven **Software Engineer** with 3+ years of experience in full-stack development, API integration, and database optimization. Skilled in JavaScript, PHP, and modern frameworks like React and Laravel. Passionate about building efficient, scalable solutions with clean code in Agile environments for CI/CD.

WORK EXPERIENCE

Software Developer

Qualfon

Apr 2025 – Present

Oklahoma City, OK

- Learned Python and Selenium to develop a web scraping application that imports data from multiple websites, reducing manual developer effort by 15 hours per week.
- Developed and maintained PHP and JavaScript code, performed bug fixes, and integrated new APIs to support the company's lead generation platform, ensuring smooth functionality and optimal performance.

Software Engineer Apprentice

UDN Consultants LLC

May 2024 – Aug 2024

Newark, DE

- Designed and implemented RESTful APIs to integrate third-party services, enabling seamless data flow between frontend and backend systems and ensuring API reliability and scalability.
- Developed comprehensive documentation in Confluence, strengthening team efficiency and providing a reliable resource for developers, stakeholders, and future team members.
- Refined SQL queries and optimized database structures, boosting query execution time by 10% and enhancing overall system performance.

Web Developer I

Thrive Life

Nov 2021 – May 2023

American Fork, UT

- Architected and built interactive, mobile responsive reports, enabling clients to track progress seamlessly across devices and improve user satisfaction by 25% which reduced client support requests by 15%.
- Built high-traffic websites and custom modules on Magento and Laravel, enhancing user experience and directly contributing to a 20% increase in sales revenue.
- Leveraged Google Analytics, Meta, and TikTok Pixel to track and optimize client promotion campaigns, resulting in a 20% increase in sales growth over six months.

Web Developer Intern

Family Search

Jan 2020 – Jul 2020

Lehi, UT

- Created interactive prototypes in Figma for potential projects, one of which led to the development of an AI/Machine Learning tool for reading scanned documents.
- Collaborated on feature development using ReactJS and AngularJS, successfully migrating legacy AngularJS projects to ReactJS, improving code maintainability and reducing technical debt by 30%.
- Wrote unit tests for web components, resulting in 80% code coverage and reducing bugs by 35%.
